## Objective:-

---

Motivated Computer Science graduate specializing in Frontend Development with a GPA of 3.27. Proficient in JavaScript, TypeScript, HTML5/CSS3, SCSS, Bootstrap, and Angular.js. Experienced as a Frontend Developer intern. Passionate about crafting user-centric solutions to drive business growth.

## Education

---

- Bachelor's Degree in Information Systems and Computer Science, Sep 2019 - May 2023  
Helwan University. GPA: 3.27 out of 4 (Very Good with honors).
- **Graduation Project:** Real-Estate site ("Grade: Excellent") 

## Experience

---

- **Java Programming Instructor, MICA Egypt Academy** Jul 2024 - Present
  - Teach Java programming to students aged 16-19, covering Java fundamentals, OOP principles, exception handling, and input/output (IO) operations.
  - Introduced students to Oracle SQL and guided them through basic database operations such as SELECT, INSERT, UPDATE, and DELETE.
  - Provided mentorship and practical examples to help students solve real-world programming challenges.
- **Front-end Developer Intern, Digital Egypt Pioneers Initiative (DEPI)** Apr 2024 – Present
  - Collaborated with a team under the guidance of the Ministry of Communications and Information Technology (MCIT) to build scalable web applications.
  - Gained proficiency in front-end development technologies, including HTML, CSS, JavaScript, TypeScript, Angular, and Bootstrap.
  - Developed a programming e-learning platform for children with an easy-to-use interface, offering courses in four categories: AI, web, mobile, and gaming. The platform includes blogs for common questions and a community section for events and user feedback. Also worked on various projects like e-commerce sites, portfolios, and a graduation project centered on the e-learning platform.

## Skills

---

- **Technical Skills:**  
JavaScript, Typescript, HTML5, CSS3, SCSS, Bootstrap, MongoDB, SQL, Git / GitHub, Angular.JS, Node JS, Figma, UI/UX Design.

## Courses:

---

- **NodeJS Developer in 2023 (Graph QL, Mongo DB, + more), Udemy, [46.5h].** Jan 2023 - Jul 2023
  - Developed backend endpoints and RESTful APIs using Express.
  - Enhanced skills in working with non-relational databases, particularly MongoDB.
  - Built mini projects and tested APIs using Postman.
  - Implemented MVC architecture for backend projects.
  - Integrated backend services with frontend applications for seamless functionality.
  
- **Google UX Design Professional Certificate program, Coursera, [10h a week].** Mar 2024 – Sep 2024
  - Developed skills in creating user-friendly and accessible designs.
  - Gained expertise in using Figma for wireframes, prototypes, and mockups.
  - Conducted user testing and gathered feedback for iterative design improvements.
  - Created storyboards to visualize user journeys and design processes.

## Projects

---

- **Real-Estate site:** It is a website about real estate, enabling users to browse, search, and filter property listings based on various criteria such as location, price, and property type. The platform also allowed users to create accounts, save favorite properties, and contact real estate agents directly through the site.  
Tools & Technologies: Node.js, React, MongoDB, Express, RESTful APIs (**Repo**🔗).
  
- **Portfolio Repository:** Developed a comprehensive portfolio showcasing my journey and projects as a frontend developer. The repository highlights my skills in creating responsive web designs and interactive user interfaces. It serves as a demonstration of my dedication to crafting engaging digital experiences and staying up-to-date with the latest frontend technologies.  
Tools & Technologies: HTML5, CSS3, SCSS, JavaScript (**Repo**🔗).
  
- **KidoGeek-Website:** The website teaches programming basics through interactive activities, fostering critical thinking and problem-solving skills in a safe, engaging environment. It encourages curiosity and creativity, helping kids gain essential digital skills.  
Tools & Technologies: HTML5, CSS3, JavaScript, TypeScript, Angular, Bootstrap (**Repo**🔗).
